

Put momentum into your information management solutions

Charged with driving greater efficiencies and standardizing processes?

Challenged by tackling a more complex information environment in an age of greater accountability?

Need to do more with less?

In such an environment, organizations like yours face increasing pressure to overcome such challenges. That means finding the right partner to streamline every aspect of your information management processes, from enhancing productivity to optimizing software investments like Livelink, to facilitating collaboration. No one does this better than Momentum Systems.

We deliver solutions that empower your organization to...

- **Be More Effective** – Automated business processes support your ability to access the right information at the right time, drive greater efficiencies; and facilitate collaboration.
- **Be More Compliant** – Tailored solutions allow you to satisfy government mandates, whether you need to move towards a 100% paperless office or enhance accountability to comply with Sarbanes Oxley. We help you minimize risk, as well as improve records management and accessibility.
- **Be More In Control** – Information management solutions put control directly into your hands, so you can gain insight into your organization and operations. Then, you can better respond, react, decide, and compete.

No other company is as great a force in this arena as Momentum Systems. We are the market leader in **applying innovation and automation to solve complex information management challenges, like yours.**

We deliver a powerhouse combination of competencies, which form the foundation for all of our solutions, including:

1. **Our Approach** – Innovative technical approaches and proven information management strategies and best practices lead to tailored solutions.
2. **Our Technical Expertise** – Unsurpassed technical proficiencies, deep Livelink, Java, .NET, and ColdFusion expertise, well-established vendor partnerships, and systems integration experience enable us to deliver more robust, stable solutions.
3. **Our Methodology** – A well-defined six-step Life-Cycle Methodology development approach guides how we automate business processes and address all of the information (structured and unstructured) associated with those processes.
4. **Our Software** – A vast library of customizable tools and utilities accelerates development and streamlines costs without sacrificing stability or functionality.

Solutions built upon this powerhouse foundation are what enable us to deliver optimized information management solutions that empower organizations to be more effective, more compliant, and more in control. Call us at **703-740-9301** or email us at **info@momentumsystems.com** so you can put Momentum into your information management solutions.
